A BRP BRAND 

IT TAKES SISU*

...TO BE FIRST ON AND LAST OFF SNOW.
CONDITIONS ARE OFTEN FIERCE. AND WE
WOULDN'T WANT IT ANY OTHER WAY.

WITH THE RIGHT GEAR SISU COMES EASIER.
SINCE 1968 THE ORIGINAL LYNX GEAR HAS
BEEN MADE TO ENDURE HEAVY USE FOR
MANY YEARS AND ADVENTURES TO COME,
JUST LIKE YOUR ORIGINAL LYNX SLED.

**Sisu is a Finnish concept described as stoic determination, tenacity of purpose, grit, bravery, resilience, and hardiness and is held by Finns themselves to express their national character.

TECHNOLOGIES

OUR RIDING GEAR AND TECHNICAL WEAR ARE BUILT WITH ADVANCED TECHNOLOGIES THAT PROTECT YOU WITH WARMTH, WATERPROOFNESS, LIGHTWEIGHT AND BREATHABILITY.

REINFORCEMENT FABRIC

Often added to garment zones that need extra durability, such as arms, back hem, inner legs, and crotch for tough yet flexible comfort.

TEFLON DWR®

More than an ordinary DWR (Durable Water Repellent) - the Teflon DWR used on Lynx gear repels water, oil and dirt to keep riders dry and protect against stains.

PRIMALOFT®

A high-performance insulation with the full spectrum of benefits to brave the elements. Warmer, drier, softer and more compressible than any other synthetic insulation.

YKK

We use the world's best - YKK zippers - recognized for quality and reliability.

E LINQ CONNECTOR SYSTEM

Some of our Lynx jackets have provisions built in for a heated shield wire - riders can leave the wire in the jacket securely fastened and out of the way.

RPM/RPM MAX

Coatings that provide maximum waterproofness, windproofness and breathability.

RPM Max: All seams & logos sealed

RPM: Critical seams & logos sealed

COMFORT IS FREEDOM

PRIMALOFT®

The PrimaLoft® logo is your cue that you're getting the highest performing materials for comfort in any condition.

Warmth without bulk

A high warmth-to-weight ratio means you don't need bulk to stay warm

Water-resistant

Absorbs less moisture from the start so you stay drier and warmer

Packable

Packs down easily for stashing in tight spaces

Lightweight

All the warmth you need with little weight

Superior softness

Enjoy unsurpassed softness that feels great on your body and contributes to a flattering fit

HOW TO LAYER RIGHT

– HOW TO DRESS TO MAKE THE MOST OF YOUR WINTER!

Enjoying the winter is often just a matter of dressing up. The Lynx clothing lineup offers a wide range of options for wearing comfortable layers. Make sure that you stay comfortable and that you are dressed for the conditions and the temperature – both on the snowmobile and in other winter activities.

1 Wearing properly layered clothing starts with a high-quality base layer. A base layer of merino wool or technical fibers wicks moisture to the outer layers and keeps the skin dry, ensuring that you stay warm.

2 The mid layer helps to regulate the body temperature. You can add or take off mid layers depending on the weather and your activity level. For example, the Lynx Hybrid jacket and shorts are designed for active riding in freezing weather. The Primaloft insulation used in the Hybrid products keeps you warm, while a set of strategically placed stretch channels ensures that moisture is actively wicked out through the outer layer. Lynx clothing lineup offers three new insulation jacket options and other mid layer products that make sure that your riding experience is enjoyable in all conditions.

3 Insulated layer. Add or adjust the warmth with insulated layer. Insulated jacket protects from the elements with additional warmth. Insulated jacket can be used alone or under shell jackets. Lynx offers down insulated packable jackets and Hybrid jacket and shorts for ideal layering.

4 Choose the outermost layer based on the temperature, the length of the trip and your riding style. You can choose from a wide range of one- and two-piece suits. The high-quality materials of Lynx clothing range's outermost layer protect you from the wind and water, while also taking care of breathability and temperature regulation. We use Sympatex and RPM Max membranes in the outermost layer. They have been selected and tested with care to meet the needs of demanding riders and other winter sports enthusiasts. The season's new outer layer items include one-piece suits for men, women and children in the Lynx Squadron lineup.

WINTER'S NOT A SEASON. IT'S A LIFESTYLE

When snow turns to slush and trails turn to tracks, it's time to train. In the gym. On the bike. Counting down the days to that first fresh fall.

The original Lynx Active range sees you through off-season, dialling up the technical details that keep your engine running all year round.

Muscles burning. The sting of ice on skin. You can almost feel it. Not long now. Winter is coming.

ACTIVE

LIVING FOR THE RIDE. ON OR OFF THE SNOW.

Passion for the ride doesn't die when you park your sled. It's in your blood. Your soul.

The original Lynx Sports takes that spirit from slopes to street, with a range of pitstop-inspired casualwear for your free time.

Hanging out with your tribe. Buzzing from your last big ride. Plotting the next one.

Wherever you are, with Lynx you're always adventure ready.

SPORTS

Take your Lynx spirit to the streets!

HOW TO CHOOSE LENS COLORS?

On brighter days, a darker or mirror lens will help to protect your eyes more from the harsh reflections of the sun on the snow. Flat light conditions require a lens that will allow more light through so you can use all the available light to your advantage. Medium tint lenses are made to be adaptable to a variety of

conditions. Lightly tinted lenses allow as much light in as possible and provide you with enhanced contrast throughout those darker days and snowfall. Clear lenses also for snowfall and dark conditions.

All Radien lenses are UV (UVA/UVB) protected.

Sun icon

Smoke
VLT 6.83%

Smoke lens tint ideal for very bright and sunny conditions.

Fire mirror
VLT 19.94%

Amber base lens tint with multi-layer red mirror designed to filter out blue light for enhanced shadow contrast in moderately flat light conditions.

FOR ENHANCED SHADOW CONTRAST
