30 YEARS OF MASTERY OF THE RACING TRACKS

Decades on the top of snowmobile racing and technology are proof of the high quality of Lynx snowmobiles. The technology developed on the racing tracks is made for tireless performance even in more demanding conditions, and to ensure that you reach your destination safely.

The original Lynx accessories are developed with the same uncompromising attitude. They are designed to perform in hard use from year to year. The high-quality Lynx riding gear designed especially for snowmobiling is a delight to the eye and also keeps you warm and dry in wind, storm and spring snowdrifts.

Lynx snowmobile accessories and riding gear make each riding mile enjoyable.

CLOTHING

Lynx snowmobile wear is made from Öko-Tex certified fabrics and contains no toxic components or allergy-inducing dyes. Environmental aspects have been taken into consideration in manufacture. Lynx snowmobile wear always has taped seams, embroideries and logos. The outer shell layer is composed of durable 600D laminated polyester with water and dirt repellent Teflon treatment. The clothes are breathable, waterproof and wind-proof. They will not rustle or harden even in extremely cold weather. Lynx snowmobile wear has been specifically designed for snowmobiling. Riding posture and guards worn under the clothes have been taken into account in the sizing.

SUSPENSION

The front suspension widening kit is recommended for trail riding as it improves sleds stability on trail.

FRONT SUSPENSION WIDENING KIT

107 cm. The wide front suspension offers more stability for trail riding. The kit also provides extra stability for those last drives in the spring, when the snow is slushy and a sled with a narrow front tends to behave unstable.

OILS & MAINTENANCE

XPS SYNTHETIC CHAINCASE OIL

The best in multigrade chain lubrication, specifically developed for our high performance models. Offers wide operating range of temperatures.

619590098 355 ml

XPS STORAGE OIL

This specialty oil is a must when putting your Lynx away in the spring. Specially formulated to protect the engine's internal parts from the hazards of rust and corrosion due to condensation during storage or prolonged periods of non-use.

619590094 350 g

XPS MINERAL CHAINCASE OIL

Dependable mineral-base chaincase protection.

619590099 250 ml

FUEL STABILIZER

Fuel additive to protect against fuel contamination and residue build-up in carburetors and gas lines. Should always be used before storing your snowmobile. Suitable for all gasoline engines.

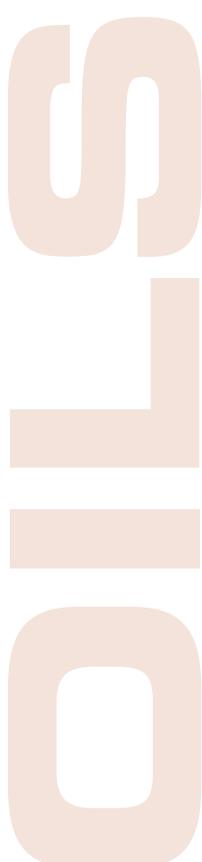

619590096 237 ml

FUEL LUBE

A multipurpose lubricant that prevents rust, corrosion and moisture intrusion. Contains active extreme-pressure additives which provide excellent lubrication and antiwear properties. Comes in a spray can that works upside down.

619590093 414 ml

XPS 2-STROKE FULL SYNTHETIC OIL

Full synthetic XPS 2-cycle oil provides the ultimate in wear protection – which is absolutely critical in E-TEC® applications where less oil is used. Full synthetic XPS has extra detergency to provide optimum engine cleanliness and anti wear additives for longer engine life. The very best product for E-TEC engines, while providing superior performance in all BRP 2-cycle engines with this high performance, low smoke, low odor formula.

619590106 946 ml

619590107 3 785 ml

XPS 2-STROKE SYNTHETIC BLEND OIL

Premium 2-stroke synthetic blend. This 2-stroke synthetic blend formulation was developed specifically for Rotax E-TEC, SDI and Power T.E.K.™ engines and delivers ultimate performance. It extends engine life and reduces smoke emissions and combustion deposits compared to conventional oils.

619590103 946 ml

619590104 3 785 ml

XPS 2-STROKE MINERAL OIL

Formulated and developed to work specifically in an oil injection environment. Flows at -40 °C and offers optimal lubrication at all running temperatures for carbureted engines. Can also be used as a pre-mix.

619590100 946 ml

619590101 3 785 ml

XPS 4-STROKE SYNTHETIC OIL

- ALL CLIMATE GRADE

Unlike other ordinary 4-stroke motor oils, XPS synthetic 4-stroke oil is specifically engineered to meet the particular lubrication requirements of Ski-Doo snowmobiles equipped with Rotax 4-TEC 4-stroke engines. Provides easier starting in very cold temperatures.

619590114 946 ml

619590115 3 785 ml

EXCLUSIVE SLED WRAPS FOR LYNX

- These Lynx exclusive sled wraps are the product of choice for the avid Lynx snowmobilers.
- Whether you want to make your snowmobile stand out from the crowd or give it a facelift, this is the product for you.
- Customizing kits also available for more color designs.
- The wraps are composed of 4 mm engineer grade vinyl with an aggressive, permanent pressure-sensitive adhesive, subsequently overlaid with an 8 mm UV protective laminate that will hold up to the various rigors of snowmobiling.
- The digital print designs will not fade in the sunlight and the sled wraps are designed to bond to "hard-to-stick" surfaces as well as low energy surfaces.

If you want your sled to be as unique as your signature, visit: www.scslynxwraps.com to see our full lineup of the wrap kits.

THE WORLD IS OUR PLAYGROUND

Nothing is more valuable than your playtime. That is why BRP is dedicated to continually finding new and better ways to help you enjoy your favorite powersports. From snow to water to both on and off-road fun, our passion for adventure fuels the innovations that result in the ultimate powersports experience for our customers. We value

the land and water we play on and are committed to protecting it. Our desire to thrill is paired with an emphasis on rider responsibility, placing personal safety above all else. So that each outing can be the most enjoyable, memorable and thrilling experience possible. Because your free time should always be your best time.
